

EFI Toolbox

Products for Marine Service Technicians

MerCruiser - Scan Tool

Developed specifically for MerCruiser dealerships worldwide, this scan tool packs powerful diagnostic features and provides support for sterndrive and inboard EFI systems from virtually all major marine engine manufacturers. Version 6 software also includes support for Mercury outboard engines. The MerCruiser scan tool displays

EFI system information allowing quick problem diagnosis. This tool also features functional test capabilities to exercise ECM outputs, has a built-in fuel injector tester and is supplied in a padded hard shell carrying case.

TechMate - Scan Tool

Designed for independent repair shops, this close cousin of the MerCruiser scan tool displays complete EFI system information and supports all major sterndrive and inboard manufacturers. Version 6 software also includes support for Mercury outboard engines. TechMate displays live sensor readings, ECM fault codes and provides fault

code explanations. Its built-in fuel injector tester performs single pulse and multi-pulse tests to locate injector problems. Functional test capabilities allow EFI outputs to be exercised for component testing. TechMate is supplied in a padded hard shell carrying case.

Diacom Marine - PC software

Diacom Marine harnesses the power of your notebook PC to form a sophisticated EFI diagnostic system. In addition to supporting all major sterndrive and inboard engine manufacturers, version 2.7 now supports Mercury outboards. Diacom Marine allows a technician to quickly view engine performance data and zero in on malfunctions. Easily record and graph data from all accessible EFI system

sensors and controls to capture elusive intermittent problems. Diacom Marine includes an extensive set of diagnostic features and has the broadest engine support in the marine industry.
